

F. C. Saville, Nominated Candidate in Battle River-Camrose Federal Riding

F. C. Saville, Hardisty district farmer and rancher, was nominated as candidate in the Battle River-Camrose federal riding at a Liberal convention held at Wainwright, Wednesday afternoon, June 17. J. L. Muirhead of Sedgewick, also had his name before the convention and on the vote Mr. Saville received the majority. Mr. Muirhead moved that the nomination of Mr. Saville be unanimous.

In 1949 Mr. Saville was Liberal candidate in the former Battle River riding and made a good showing. Indications are that he will do very well in the newly formed Battle River-Camrose riding.

Senator J. W. Stambaugh gave a rousing talk on federal affairs and the sound record of the Liberal government. He praised the candidate for the splendid work done for the cattlemen as a delegate to Ottawa on several occasions. Men like Mr. Saville are needed at Ottawa to present the views of this large riding, stated the Senator.

Officers elected were: Hon. President, Senator Stambaugh; president, A. Gordon Wilson, Duhamel; 1st vice president, John Duhamel, Wainwright; 2nd vice president, P. E. Adamson, Marwayne; secretary-treasurer, P. M. Armishaw, Wainwright.

Directors, R. Nelson, Lloydminster; Mrs. H. Cross, Vermilion; A. D. Campbell, Clondonald; C. Quinn, Paradise Valley; Jas. McCrory, Kitcoy; J. Robinson, Wainwright; C. Drever, Hardisty; J. Hallum, Sedgewick; J. L. Muirhead, Lough-wood; H. G. Thunell, Viking; E. Forster, Camrose; A. G. Wilson, Duhamel; K. Stambaugh, Bruce; N. Batke, Edberg; L. Niehaus, Heister; M. McLean, Hazeldene; John Snyder, Daysland.

Easterly Echoes

Mr. and Mrs. Clark and daughter of Flaxcomb, Sask., spent a few days visiting their cousins Mr. and Mrs. H. Morse and family.

Mr. Eldon Fenton visited with his uncle Mr. H. S. Magee in Stettler over the week-end.

Mr. Stuart Fenton, President of the Northern Alberta Hereford Association took part in the Hereford Tour on Monday last. It started at the Kallal farm at Tolfield and ended at the Zeigler farm at Vegreville. There were some one hundred and fifty people in about fifty cars that attended. Mrs. Fenton accompanied him.

The Irma United Church Service at King's Park on Sunday last was well attended by its own members as well as some from other points. Mr. and Mrs. L. Alexander and family of Auburndale; Mrs. James Fenton, Mr. and Mrs. E. W. Carter and Mrs. G. H. G. of Wainwright were among the congregation. Mr. Ed Haugen with his amplifier and Mr. and Mrs. G. Hurst with their saxophone and accordion added much to make this an inspiring occasion.

Congratulations and best wishes of the community go to Mr. and Mrs. Erle Prior who are celebrating their Silver Wedding Anniversary.

Chicken Fox has appeared in the district. Some of the victims are Keith Steele, Donald Morse, Eddie Savard and Ronnie Dempsey.

The Battle River W.I. meeting has been postponed for one week.

Southern Sayings

(Last Week)
Mr. Jake Reber of Eaglesham, Alta., was a visitor with his nephew R. Reber and family last week.

Mr. and Mrs. George Rubenok of Lacombe and Mr. and Mrs. A. Mancor of Edmonton were visitors in the district for Hardisty Stampede.

Mr. and Mrs. Ivor Frowland of Calgary visited at Mr. and Mrs. O. Setter's and family over the week-end.

Mr. and Mrs. Bill Veer of Calgary were visitors with Mr. and Mrs. P. Funk and family and other relatives in the district last week.

Mr. George Foreman spent a few days at Hardisty visiting friends there during stampede week.

Mr. and Mrs. Roy Reiber motored to Edmonton Tuesday with Mr. O. Nissen, Roy having to attend the Cancer Clinic.

(This Week)
Mr. and Mrs. Kenneth Guy and Mr. and Mrs. Orville Guy of Winchester, Ont., were visiting with their nieces and cousins Mr. and Mrs. Syd Johnston and family.

Mr. and Mrs. Nels Funk and Abe Dyck of Cando, Sask., were visitors at the home of Mr. and Mrs. P. Funk and family last week.

Mr. Anderson of Edmonton is busy with his helpers wiring every one's house for the electricity which they expect to come some day soon.

Mr. W. Allen Sr. and T. J. Allen Jr. were visitors at Mr. and Mrs. R. Reber's home last week.

"Vernon Gray" is our old friend Verne Raham who spent his childhood at Irma and received his public school education here. He is the son of Mr. and Mrs. A. T. Raham of Elk Point. Mr. Raham was CNR agent here for a number of years.

Jarrow News

Miss Elvina Sonett spent the week-end with Carl, Irma and Douglas.

Mr. and Mrs. W. Myers and family were the guests of honor at a party given for them at the Battle School on Monday night. Their friends and neighbors were there to join in the fun and to wish them well in their new home. They are moving to Viking where Mr. Myers has taken over the school bus service. Games, contests and a short program of music and readings all combined to make an interesting time for all. The highlight of the evening were the sing-songs led by our student minister Mr. Leonard Ling. A delicious lunch was served after which they were presented with an electric kettle and a sum of money. The best wishes of the community go with them in their new venture.

Sunday, July 5 at 3 p.m. is the day set for the rededication of the Jarrow Church. The church has been redecorated from top to bottom and we're all very proud of it. Much time and labour has been given to this project. Special thanks go to Mr. Harry Meekins for his help in moving the chimney and to Mr. W. Belton who did the painting job.

Come and join us in this special service.

Mr. and Mrs. Williams of New Westminster, B.C., have been enjoying a holiday at the home of her brother, Mr. Alfie McMurray.

Mr. H. McGuire is sporting a new Meteor five passenger coupe.

Mrs. Matthews of Edmonton is now visiting with her son Scotty and family.

Miss Noreen Skori is now clerking at Sonett's General Store.

JARROW UNITED CHURCH

Student Minister,
Leonard F. Ling, B.A.

NOTICE

There will be a public meeting in the lunchroom of the Irma school on Thursday, July 2 at 8:30 p.m. sharp for the purpose of furthering plans in regard to a community hall. It is hoped there will be representative groups from every organization in this community and that everyone interested in this project will attend. It is planned that a proper organization shall be set up at this meeting to make our community hall become a reality in the near future.

Be there on July 2.

A want adv. in this paper does big work at small cost.

Church Rally Well Attended

The United Church Rally at King's Park was well attended last Sunday. The weather was rather cool and breezy but rainstorms passed us by.

The choir was in attendance and music was provided by Mr. and Mrs. G. Hurst.

A number of old friends joined with us that afternoon and with the aid of E. Haugen's loud speaker the Rev. H. W. Inglis was able to make his fine message clear to all.

Following the service a huge bonfire was built and improvised tables were made from the church benches and a pleasant supper hour was spent together before the congregation left the park.

Kinsella News

Mr. Gayfer and his high school pupils held their annual end of term picnic at the sports grounds on Friday afternoon. Games were played, followed by a winner contest.

Mr. E. Miller recently had a visit from his brother from New York.

Messrs. Paul Kosteriva and Julian Makar spent the week-end at their homes here. They are at present in Toronto.

Mr. and Mrs. C. Horinek held a combined birthday party on Wednesday evening in honor of their two sons, Marvin and Dwayne.

Other week-end visitors included the Misses Olga Mulowka, Shirley Davis, Myrtle Miller, Mr. and Mrs. Boyd and sons of Edmonton, and Mr. Jack Barker.

Bobbie Cormack spent the week-end with his school pal Jack Lanester.

LOCAL NEWS

Miss Vivian Stockton of Edmonton spent Sunday at the home of her parents Mr. and Mrs. E. Stockton. This was also a special occasion, Father's Day and mother's birthday.

Mrs. Ingrid Vingerud, who now resides near Salt Lake City, Utah, surprised her old friends here this week. She had arrived in Edmonton by plane and came down from the city to Irma with Bertie Jackson and was right in our midst before anyone knew she was coming.

Ingrid didn't think too much of the cool June rain that was falling here when she arrived. It had been 96 degrees above when she left Salt Lake.

Those June rains are very nice, though.

Lawrence Kellar did well in the Wainwright Frontier Days sports last week. On Friday he won two second prizes with his pony and the walk, trot and run races. On Saturday he won one first and one second prize in the same type of races.

Mrs. S. Magrath is now out of hospital and is at Irma at the home of her daughter Mrs. K. Coffin.

Mrs. Galloway of Montreal is holidaying here with her sister Mrs. J. Craig.

Mrs. G. M. Holt of Wainwright was an Irma visitor last Sunday.

Miss Margaret Inglis of Wainwright, Ont., is visiting here at the home of her uncle the Rev. H. W. Inglis. Margaret plans to visit other relatives in B.C. before returning to Ontario.

Mrs. Fong of Vancouver is visiting here at the home of her daughter Mrs. J. Pond.

Mr. and Mrs. H. L. Black attended a double wedding at the Holt Colony on Sunday last.

Mrs. Alfred Halverson is a patient in the Viking hospital.

Mr. and Mrs. A. C. Milne and family motored to Leduc on Sunday last taking with them Johnny and Olga Hynka who will now be residing there with their parents. The Milne family spent two or three days with the Hynka family before returning home.

Canada Prepares to Deal With Disaster

You Can't Be Certain—
You Can Be Ready—

Contrary to, widely-held opinion, total extinction is by no means inevitable in modern warfare, even under attack by the most powerful weapons yet used.

This is the keynote of instruction contained in a federal civil defence handbook, "Personal Protection under Atomic Attack," published by the Department of National Health and Welfare, whose minister, Hon. Paul Martin, is responsible for civil defence at the federal level.

Intended as a general guide to the population at a time when Canada is organizing and training services to cope with mass disaster, the civil defence manual is predicated upon the possibility that some of our cities could be targets for atomic bombs.

The book was printed before it was disclosed that some nations have carried experimentation with death-dealing weapons into the field of hydrogen explosives, which may be even more lethal than the much-predicted atom bombs. But experts of the Defence Research Board, Canada, scientific advisers to the civil defence authorities, believe that the principles which it sets forth in layman's language hold good under any type of attack, including those with high explosives or incendiary bombs, and, indeed, are applicable in most types of peacetime catastrophe as well.

PLAYING SAFE

"This business of getting ready for attack by an atomic or some other kind of bomb, does not mean other the place in which we live is going to be bombed," the book notes in its introduction. "It simply means that we are playing safe. It's the sort of thing we do all the time when we buy insurance, put lightning rods on the roof and put anti-freeze into the car radiator. We just don't want to take a chance."

The parallel between civil defence and insurance is drawn throughout informational material issued by the Civil Defence Division of the Department of National Health and Welfare. It reiterates, in all its publications, that, since disaster is no respecter of persons or places, everyone must be prepared to meet any type of emergency, including enemy attack.

PREPAREDNESS PAYS

If Canada became involved in a war and was subjected to hostile action, government officials feel that the enemy would be more interested in bombing unprepared communities than those where everybody was ready because, then, they could cause more casualties and do far greater damage. So, the better prepared, the better a community's chances of escaping with little or no injury.

"As a matter of fact," says the government book, "our chances, according to the law of averages, are pretty good in any case, but they are far better if we take appropriate precautions."

The book goes on to describe the types of atomic weapons which could be used against Canadian communities, explains what to do now to prepare for such emergency, what to do if attack comes and how to carry on afterwards.

Included in the manual are clear instructions on construction of basement shelters and outdoor shelters and special hints which may be invaluable to citizens in wartime.

Copies of the manual "Personal Protection under Atomic Attack" are available, free, to all civil defence workers, through Provincial Civil Defence offices, and arrangements have been made by the Queen's Printer, Ottawa, for its widespread sale throughout Canada at nominal cost.

Legion Meeting Tuesday, June 30

The Irma Branch of the Canadian Legion will hold a special meeting in the Legion Hall at 8:30 p.m. on Tuesday, June 30 to make the final arrangements for the July 8 Sports. A full attendance is requested and a report from the various committees is expected. An special effort on the part of committee members to have their work organized by this meeting is requested. Remember the date and time, June 30 at 8:30 sharp.

Card of Thanks

I wish to take this opportunity to thank my friends for flowers, fruit, cards and letters received while in hospital. Also for friends visiting me while in hospital and on my arrival home. I sincerely thank you all.—Mrs. Carl Larson.

MASSEY-HARRIS COMBINES TURN CIRCLES on a HILLSIDE

to test features that help you do your
work better, quicker and at less cost.

To get work done, farming now relies largely upon mechanical equipment. Manpower is scarce and costly and mechanization has been the answer to the farm help problem. Never before has it been possible for a man to do so much, so easily, and so quickly as it is today with up-to-date tractors and power equipment.

That Massey-Harris machines may offer the latest features and advantages in design and construction, research engineers test them by modern stress analysis devices and days and days of operation on the Massey-Harris test track—the first modern full-scale test track for power farming machinery.

MASSEY-HARRIS COMPANY, LIMITED

The Good Earth

(By N. A. Chamik,

From The Viking News)

2-4-D SPRAYING TIME

Again it is time to check our fields for weed infestation and prepare for spraying with 2-4-D. It is now common knowledge that many of our troublesome and common weeds can be effectively controlled by spraying with 2-4-D and with economical returns to the farmer. Timing your spraying operations is very important. Wheat and barley are best suited for spraying when in the third leaf stage or when the leaves are six inches long. It is not advisable to spray any crops when it is heading out, or in the flowering stage. Oats are more sensitive and spraying of it is recommended when the oat crop has just come into the shot blade stage. Do not delay until the head is formed in the boot, as spraying at this time is again injurious to the oats. Flax crops should be sprayed after the plants have formed three or four leaves and before budding stage. Check your fields regularly now for weed infestation and stage of crop development and if conditions warrant spraying, then time your operations for best results. The rates of application will vary depending on the type of chemical you use, and kinds of weeds you want to spray. Ester type of 2-4-D is most commonly used and as it penetrates weed growth immediately, there is little risk of losing the effect of the spray if it should rain shortly as is the case with aniline. Aniline is probably safest on flax. Stinkweed, pigweed, mustard and thistles can be controlled effectively with 4 oz. to 6 oz. of actual acid, ester type, per acre. Tartary Buckwheat should be sprayed at the very early stage at the rate of 6 to 8 oz. of ester, acid equivalent, per acre.

With favorable growing conditions as exist at present, 2-4-D should give good results. The cost of 2-4-D chemical has dropped and it would seem that this should be a bumper year for chemical weed control. Spraying with 2-4-D not only controls weeds but increases yields and makes harvest operations easier.

This office would be most willing to assist farmers with any other details on 2-4-D spraying. If you

District Agriculturist)

are in doubt, consult us or your Field Supervisor.

BULLETIN ON TARTARY BUCKWHEAT CONTROL

This office has just received a supply of a new bulletin on tartary buckwheat control, issued by the Dept. of Agriculture. This bulletin is available free upon request and should be of interest to many farmers in this district troubled with tartary buckwheat or those wishing to prevent introduction and infestation of this weed to their farms.

Brief summary of facts in tartary buckwheat control could be stated as following. Seed of tartary buckwheat germinates at different stages, similar to wild oats, therefore, it keeps reinfesting crops year after year. Seed in field infested with buckwheat must be after ripened or dried out first and brought to within three inches to surface before they will germinate. This weed grows only from seed. The first precaution is to be very careful not to buy or use seed grain that has tartary buckwheat. Check your fields regularly during the growing season, and should an odd plant be found, pull out by hand, for this will save endless trouble in the future. This maximum applies to other weeds. Once a field is infested with tartary buckwheat, it is not easy to control its infestation. Cultivation on such fields should be shallow. Kill a crop of buckwheat before seeding to grain crop. This means delayed seeding and use of barley. Fall rye is also a good clean-up crop. Post seeding cultivation has also been found helpful. Since seed of tartary buckwheat will live in soil for a number of years, forage crops will not eradicate it, but will help considerably to thin out the infestation. As mentioned in our article above, tartary buckwheat is somewhat resistant to 2-4-D, but spraying at the rate of 6 to 8 oz. as early as possible will give satisfactory kill. A chemical known as M.C.P., which like 2-4-D is a selective weed killer, because it is less injurious to crop, may in the future be more useful in the control of tartary buckwheat.

DEPT. OF TRADE AND COMMERCE BOARD OF GRAIN COMMISSIONERS FOR CANADA

In order to prevent the entry date into commercial channels of grain treated with poisonous fungicides, the Board has made, effective immediately, the following Regulation No. 26:

REGULATION No. 26

DELIVERY OF TREATED GRAIN TO ELEVATORS

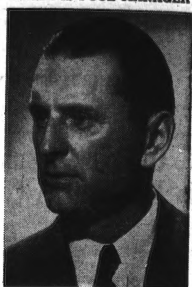

Every person who offers for storage or sale at a licensed elevator any grain which has been treated with mercurial dust or compounds, or with other toxic materials, or grain mixed with other grain which has been so treated, shall, if an individual, be liable on summary conviction, to imprisonment for not more than three months or to a fine not exceeding Five Hundred Dollars, and if a corporation shall be liable, on indictment or summary conviction, to a fine not exceeding One Thousand Dollars.

ON HOLIDAYS

As I will be on a week's holiday the office will remain closed during this period and the Good Earth articles will not appear in your paper for that period.

The importation of manufactured wool products declined in 1952 over 1951 from \$68 million to \$53 million; importation of raw wool to be manufactured in Canada into wool products declined from \$95 million to \$29 million in the same years.

BAKER IS POOL MANAGER

A. T. Baker, of Nemismac, has been appointed manager of the Alberta Wheat Pool. In making the announcement, Ben S. Plummer, chairman of the board of directors, stated:—

"Shortly after the passing of R. D. Purdy, former manager, T. E. Oliver was appointed acting manager of the Alberta Wheat Pool. Because of Mr. Oliver's health and the heavy responsibilities involved the board of directors have decided to appoint A. T. Baker manager of the organization. Mr. Oliver will continue as assistant to Mr. Baker.

Mr. Baker has been a director of the Alberta Wheat Pool since 1945 and vice-chairman during the past three years. He is a young man whose farm background, business training and experience in Pool affairs equip him for the position."

Albert T. Baker was born in Illinois and is the eldest son of Perren Baker, who was minister of Education in the U.F.A. government of Alberta. The Baker family came to Alberta in 1910 when the homestead rush was on and the father filed on land at Nemismac, which is on the Lethbridge-Medicine Hat line of the CPR, about 60 miles southwest of Medicine Hat.

Albert T. Baker now operates the family farm which has grown to nine sections of land, is fully mechanized and has thousands of acres under crop each year. He was educated at the local school at Nemismac, at high school in Edmonton and at the University of Alberta from 1935. Albert followed the example of his father in interesting himself in farmer movements and was elected a delegate to the Albert Wheat Pool in 1941. In 1945 he was elected director for the Lethbridge district in succession to Christian Jensen of Magrath, who served in that capacity for twenty-two years.

EDMONTON REPORT

By Donald F. Smith

EDMONTON—It is a year ago this month that the first positive case of rabies was diagnosed in Alberta. It was discovered in a trapper's dog that had been bitten by a fox near Fort Fitzgerald.

That case was the first indication of what later became an epidemic of the maddening disease in the province's wildlife and touched off a widespread program of decimating the numbers of foxes, coyotes and other types of predatory animals.

There has been some decrease in the number of cases reported publicly in the past month or so, but officials of the provincial and federal veterinary services are warning that it is not the time to think of relaxing our vigilance.

"We haven't had as many cases in the past while as in January, February and March," admitted Dr. E. E. Ballentyne, provincial director of veterinary services and chairman of the rabies central control committee. But he added: "The cases that have occurred indicate that there still is widespread infection."

He mentioned confirmed cases of rabies in a beaver at Grande Prairie, a cow at Keg River, a lamb bitten by a coyote, at Grassland, a fox near Drumheller, a dog at Foothills. All these were reported recently and within a period of two weeks.

One reason why fewer cases are receiving public notice is the fact that in areas where rabies has been proven every fox and coyote killed is not sent to the laboratories for investigation. In addition there is the difficulty of shipping specimens from northern points, while reports from these centres also are often delayed.

The control committee, of course, is asking that all suspicions of rabies in domestic animals be reported, no matter from which area of the province.

Dr. Ballentyne also credited the control program for decreasing the incidence.

"You couldn't possibly kill thousands of wild animals and not have some effect," he stated. He pointed out that in some districts 700 to 900 coyotes alone have been destroyed. There were 5,477 wild animals killed in March in the province-wide fight to stop the spread of rabies. Largest group killed in the program so far have been foxes, then coyotes and wolves, followed by lynx, bear, cougars, skunks and wolverines.

That the picture is not entirely dark was indicated at the recent convention of the Veterinary Medical Association of Alberta. Dr. Robt. Connell, of the Lethbridge veterinary research laboratory, said he believed rabies could and would be stamped out. He stressed the need for accurate diagnostic work.

This requires the help of citizens. Main thing to remember when killing an animal suspected of rabies is to preserve the brain, so that when the head is sent to vets they have the brain intact. When it is all possible the suspect should be kept under observation for 10 days.

Relaxation of control and vigilance could mean the spread of the disease would increase again, perhaps surpassing the rate of incidence of last fall and winter. Officials suggested that one of the worst things that could happen would be for citizens to become "indifferent to the necessity" of keeping their pets leashed and of being on the lookout for the disease in wildlife in their districts.

While there haven't been any confirmed cases of rabies in persons in the province, more than 100 humans have gone through the gruelling treatment against it, after having been bitten by dogs believed rabid, or after exposing themselves to possible infection.

Strangest case concerned a 12-lb. rabbit jack rabbit, which hurtled itself through a truck window near Ryley last month, killing itself.

Only the provinces of Sask. and Alberta do not border on salt water.

Local News

The Irma W.I. Annual Grandmother's Day will be held in the School Lunch Room on the afternoon of July 2 at 3 p.m. Hostesses, Mrs. W. Rae, Mrs. Drewicki, Mrs. Matwchuk and Mrs. R. O. Larson. Roll Call, Bring a Grandmother. Program, by the program committee.

The Junior W.A. are holding a sale of Home Cooking at the Irma Food Market on July 4.

Keep in mind the LOBA dance in Kiefer's Hall on July 3 after the show. Music by Murray's orchestra.

Mrs. A. C. Charter spent the early part of this week in Edmonton.

Mr. and Mrs. F. T. Thurston left Irma on Tuesday for a two weeks holiday at Vancouver with Mr. and Mrs. A. W. Burton.

The next meeting of the Ross FUA Local No. 732 will be held at Alma Mater school on Monday, June 29 at 8 p.m.

Mrs. R. D. Smallwood and her guest Mrs. MacEachern of Moncton, N.S., are visiting this week at the C. S. Smallwood home north of town.

HOME ECONOMIST NEWSNOTES

Shirley Hoims, Wainwright, Alta. SHOPPING?

Have you noticed the many interesting fabrics being styled into summer wear? Many of these fabrics are not new but they are being used in new and exciting ways. Denim, the fabric commonly used for shorts or peddle pushers, is now seen in dresses, skirts and jackets. Denim is available in a variety of colors, in stripes and in plaids. It is suitable for children's or ladies wear.

WHAT TO LOOK FOR

Summer clothing should be easy to wash and iron. Cottons are noted for these qualities. But most fine cotton fabrics crease badly.

When you purchase dress goods in the piece ask the sales clerk "is it sanforized?" Sanforized fabrics are guaranteed not to shrink more than 2 per cent. If the material you choose is not sanforized you can, and you should, pre-shrink it at home. Cotton fabrics may be folded directly into luke warm water and allowed to stand for about 8 hours. Then hang the fabric out to dry. Press the material.

THINK of the advantages of purchasing crease-resistant materials. To test any fabrics for crease resistance, simply try to crumple a corner. It is in your wardrobe, moist hand. Criskey and similar fabrics, are crease resistant. When you sew these fabrics you must be sure to give the seams a very thorough and firm press with a damp cloth and iron. Criskey is not a suitable fabric for large people to wear. The material will stick out, appearing to increase the size of the person.

FASHION TRENDS

In ladies clothing, the stole is again making its appearance. These stoles are often finished with a contrasting or matching fringe. Outside stitching in a contrasting color is being used to trim skirts, jackets and dresses. This outside stitching is often combined with applied tape to form a border design. Such easy forms of decorating can be tried and used by all seamstresses.

For further information on sewing problems phone or write this office. A pamphlet "Short Cuts in Sewing" suggests an easy way for inserting zippers, making buttonholes and inserting collars.

HEAVY RAINS AND VARIETIES

Some varieties are seriously affected by heavy rains. At many places on the prairies Demonstration Plots sown with several different varieties of wheat, oats and barley are to be seen. The plots will show varieties which have done well or poorly under the recent heavy rains.

See the nearest Searle Agent for location of these plots.

J. C. McFarland Co.

Locals

Miss Laurina Ostad of Jasper is expected to arrive at Irma this week for a visit with her mother and her sister Sharon.

Mr. J. Paul of Ocean Falls, is holidaying here with his sister and brother-in-law Mr. and Mrs. J. Dunbar and also with his brother Mr. Dave Paul.

Bob Dunbar received word this week that he has been chosen as the Efficiency Winner of the Irma 4H Beef Club and is entitled to go as a guest to Vermilion School of Agriculture for Club Week in July.

Mr. L. A. Johnson returned home on Saturday last after receiving medical treatment in the city. His many friends are glad to know that he is feeling much better.

Public Notice

Is hereby given that there has been introduced in the Council of the Municipal District of Wainwright No. 61, Bylaw 416 which reads as follows:

A Bylaw of the Municipal District of Wainwright No. 61, authorizing an expenditure of Thirteen Thousand (\$13,000.00) Dollars, for the purpose of implementing an agreement for the construction and operation of a Seed Cleaning Plant, under the authority of Section 200a of the Municipal Districts Act being Chapter 151 of the Revised Statutes of Alberta and pursuant to Section 12 of the Agricultural Service Board Act being Chapter 19 of the Statutes of Alberta.

WHEREAS
The Council of the Municipal District of Wainwright No. 61 deem it expedient to enter into an agreement with the Department of Agriculture, Government of Alberta, and Wainwright Seed Cleaning Plant Limited, for the construction and operation of a Seed Cleaning Plant, within the boundaries of the Municipal District of Wainwright No. 61 or Town or Village Bounding on the said Municipal District.

AND WHEREAS
The Ratepayers of the Municipal District of Wainwright No. 61 have raised the sum of Thirteen Thousand (\$13,000.00) Dollars by way of sale of shares, and the Government of Alberta will pay by way of a grant the sum of Thirteen Thousand (\$13,000.00) Dollars.

AND WHEREAS
The sum of Thirteen Thousand (\$13,000.00) Dollars is required from Municipal District funds towards the financing of the project, being the amount agreed upon between the parties as the Municipal Districts share.

THEREFORE
The Council of the Municipal District of Wainwright No. 61 enacts as follows:

1. That it shall be lawful for the Council of the Municipal District of Wainwright No. 61 to enter into an agreement with the Department of Agriculture, Government of Alberta and the Wainwright Seed Cleaning Plant Limited for the construction and operation of a Seed Cleaning Plant.

2. That the Reeve and Treasurer of the said Municipal District be and are hereby authorized to sign and countersign a cheque payable to the Wainwright Seed Cleaning Plant Ltd. for the sum of Thirteen Thousand (\$13,000.00) Dollars, when the said agreement is duly completed.

DONE AND PASSED in Council assembled at the Town of Wainwright this 14th day of May A.D. 1953.

1st reading 14th May 1953.

2nd reading 14th May 1953.

CANADIAN NATIONAL

Canada is assumed to need a population of 30,000,000 by 1975 to absorb her own industrial production, meet responsibilities of defense and to fill a framework of government four times too large for the country.

QUESTIONS AND ANSWERS about Cancer

QUESTION: How does cancer spread through the body?
ANSWER: Cancer spreads in three ways. (1) Cancer cells may grow directly from one tissue to another; (2) They may spread through the lymph streams; (3) The blood stream may carry cancer.

Know Cancer's Danger Signals. Send for free literature by writing:
